VINTAGE DISCOVERY

The space, gathered in the delicate warmth of ceramics, mirrors the characteristics of those who love to dare and, at the same time, embrace tradition with a touch of irony and character. On the floor, the herringbone installation pattern is particularly stunning thanks to the color shading of the surface.

The colour of tiles printed in the catalogue may differ from actual tiles. Tile color reproductions in this catalogue are representative only. Slight tone and shade variations are inherent in porcelain tiles. Before selecting a colour, we recommend that you contact your local representative, who will provide you with a sample piece of the requested tile.

This porcelain tile product is manufactured with a V3 shade variation. Remember that the amount of colour as well as the texture of each piece may vary from tile to tile. Inspect the product immediately upon delivery and select tiles from many boxes during installation to minimize and blend any possible colour difference.
