COLOR SHADING

The colour of tiles printed in this catalogue may differ from actual tiles. Tile color reproductions in this catalogue are representative only. Slight tone and shade variations are inherent in porcelain tiles. Before selecting a colour, we recommend that you contact your local representative, who will provide you with a sample piece of the requested tile.

This porcelain tile product is manufactured with a V3 shade variation. Remember that the amount of colour as well as the texture of each piece may vary from tile to tile. Inspect the product immediately upon delivery and select tiles from many boxes during installation to minimize and blend any possible colour difference.
